

As a hiking enthusiast I want an ascetically pleasing interface.

As a hiking enthusiast I want to mark spots on the map showing me where the plant is located.

As a hiking enthusiast I want to be able to login and create an account.

As a hiking enthusiast I want to be able to upload Photos to the site wit accurate descriptions on what the plant looks like the color of the flower if the plant has one and where can I find it in the wild(like if its got a yellow flower and commonly grows by the water).

As a hiking enthusiast I want to know what is the nutritional value of the plant.

As a hiking enthusiast I want to know where the plant is located in the U.S.

As a hiking enthusiast I want to be able to vote on if the comments helped me locate or if they are accurate to the location stated.
